USE PUMPOUTS!

- **PUMPOUT BOAT SERVICES** are provided **FREE** of charge!
- **Over 1 million gallons of effluent** have been removed from recreational vessels since the 1st boat began operations...that could otherwise have ended up in the Bay!

• **TANK MAINTENANCE:**

Proper maintenance and operation of your on-board toilet & holding tank are critical to ensure they function properly.

Allow adequate water when flushing to ensure removal of solids from your tank.

Additives... Consider using one of the available tank additives to break down the solids in your tank.
